

CURRENT TEMPORARY LOCAL RULES

PREFERRED LIES – 16TH HOLE

Preferred lies will only apply to the 16th Hole. Preferred lies will only apply to the General Area cut to fairway height or less and bound by BLUE lines. If the ball lies in the relief area, the player may place the ball within 1 club length, not nearer to the hole.

IRRIGATION TRENCHES ON 4TH, 10TH, 11TH & 12TH HOLES

Where a ball comes to rest in an irrigation trench on the 4th, 10th, 11th and 12th holes, the player may take relief in accordance with Rule 16-1.b, within 1 club length of and not nearer to the hole than the nearest point of relief.

These trenches are not necessarily marked as GUR.

17TH GUR AND SANDY WASTE AREA

The newly turfed area is now in play. Mounds and adjacent areas on the left side are marked GUR and are a no play area. Players must take relief within a clublength of the nearest point of full relief outside the GUR area and not nearer the hole - Rule 16.1

The new sandy waste area to the right of the fairway is in play as rough and is not a bunker or penalty area. Players may ground their club when playing from this area. Please smooth out your divot and footprints with your club or shoe.

Please note Rule 16.3a for relief from an embedded ball excludes relief when the ball is imbedded in sand in a part of the general area that is not cut to fairway height or less.

Please keep carts off the sandy waste area.

Applicable as at 27th May 2022
